## Education

---

### Yarmouk University B.S. in Informatics Engineering

Aug 2014 - June 2020

Enrolled in different programming courses such as C++, data structure and algorithms where I got introduced to and fell in love with the programming world, and DBMS where we dealt with SQL and structured databases.

### ASAC-LTUC I.D. in Web Development

April 2021 - Oct 2021

Very extensive web development course, where I had to deal with software development programming languages and platforms, mainly JavaScript, Typescript, HTML, CSS, ReactJs, Redux, NodeJs, Rest APIs and SQL databases.

## Professional Experience

---

### Software Developer

Dec 2021 - Present

LTUC-ASAC

Amman

- ASAC is the development division in LTUC collage, considered to be the best in its field.
- Worked on staff management system project as a full stack developer (React.js, Node.js).
- Developing and managing discord channels for courses and students.
- Interviewing possible candidate students for scholarships.

### Free lancing (part-time)

June 2023 – Oct 2023

Tahat workshop

Remote

- An intuitive interface for managing user data, products, and transactions in a workshop environment.
- Tools and technologies used: JavaScript, React.js, Node.js, Mongo DB, Material UI.

### Front-End Developer Intern

June 2022 - Sep 2022

Atypon

Amman

- Atypon develops publishing technologies into the hands of the practitioners and researchers who need it most.
- Got introduced to semantics hypertext markup language best practices with HTML5.
- Applied the concepts of web content accessibility principles (POUR) and search engine optimization (SEO) into various applications.

## Technical Skills

---

**Programming languages:** JavaScript and Typescript. Familiar with C++ and java.

**Frameworks and libraries:** React.js, Redux, Bootstrap, Material UI, Node.js, express, SQL and mongo DB.

**Other:** Git, GitHub.

## Projects

---

- [My Workshop](#) web application designed to provide an intuitive interface for managing user data.
- [Comics](#) different APIs to retrieve data for movies, comics and cartoon's characters - [GitHub](#).
- [React Animation](#) a collection of stylish and customizable CSS3 animations and React components to enhance the visual appeal of your web applications - [GitHub](#).
- [Four Boxes](#) simple clicking game to test your focus and concentration - [GitHub](#).
